Automotive Racks

CREATIVE Multiple Uses, Transforms for Reduced Return Freight

COMPETITIVE Factory Direct Pricing, Free Quotes, Reasonable Prototypes

CONFIDENTIAL Designed to Meet your Specific Requirements

Plymouth Industries, Inc. is a leading metal rack fabricator that specializes in supporting the automotive industry supply chain.

If you are a Tier 1, Tier 2, or Tier 3 automotive supplier we have the racking solution for you. Our durable, portable, and shippable automotive rack systems cut material handling time, prevent product damage, increase shipping density, and save valuable floor space.

Custom automotive racks are designed and fabricated to nest your product creating the perfect storage and transportation solution no matter the part's size, fragility, or shape.

Automotive Rack Types

- Bumper Rack
- Door Rack
- Driveshaft and Axle Rack
- Engine Rack
- Exhaust System Rack
- Fender Rack
- Front Assembly Rack
