Creative Machine Building Services

Investing in a bespoke machine is a significant endeavor; choosing the right partner can mean the disparity between profitability and downfall. Since 1985, Plymouth Industries has been diligently serving manufacturers, irrespective of their scale, to address their specific manufacturing pain points. Irrespective of the application at hand, Plymouth Industries possesses the profound expertise to deliver a comprehensive range of services, including:

- Designing and engineering tailored solutions
- Procuring essential raw materials and commercial components
- Fabricating and welding machine structures
- Precision machining of components and parts
- Applying meticulous finishing touches through painting, powder coating, or specialized coatings
- Precise assembly of the machinery
- Expert installation of pneumatic or hydraulic systems
- Skillful programming and wiring of primary controls and operator stations
- Rigorous testing and inspection to validate the proof of concept
- Efficient packaging and timely shipping of the final product
