MaxStax Industrial Wire Baskets

High-Density Storage Without Sacrificing Visibility or Access

Built to maximize vertical space, improve part visibility, and streamline material flow, without permanent racking. MaxStax™ Industrial Wire Baskets provide a rugged, stackable storage solution designed for high-density environments. Built for repeat handling and long service life, these baskets improve organization, visibility, and vertical space utilization while remaining flexible as production needs change.

Description	Part Number	Each @ 50	Each @ 100	Each @ 200	Each @ 300
MaxStax Wire Basket	PI-40519-100-000	\$474.98	\$454.98	\$422.84	\$393.48

Got a special need? Dimensions, load ratings, or finishes can be custom-tailored for your specification. *Prices are subject to change due to fluctuations in material costs and market conditions.*

Key Features & Benefits

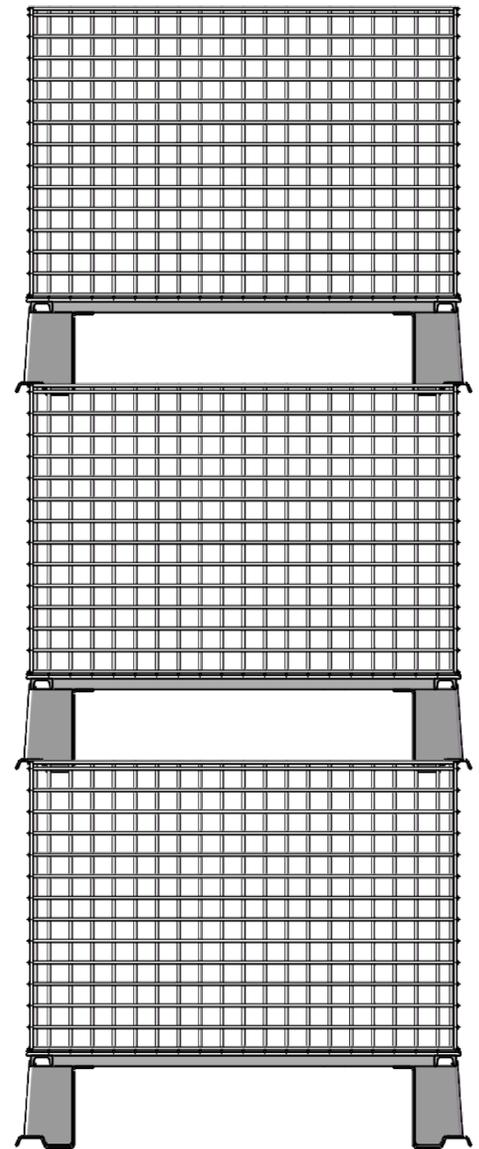

- **Heavy-duty welded wire construction** - Supports repeated handling in demanding industrial environments
- **Stackable design** - Maximizes vertical storage without permanent racking
- **Open wire sides and base** - Improves visibility, airflow, and inventory accuracy
- **Forklift and pallet jack compatible** - Integrates seamlessly into existing material flow
- **Multiple sizes and configurations available** - Fits parts, components, and assemblies across operations
- **Durable industrial finish** - Resists wear, corrosion, and daily abuse

Ideal Applications / Use Cases

- Manufacturing WIP and component storage
- Warehousing and distribution centers
- Assembly and kitting operations
- Maintenance, repair, and spare-parts storage
- Facilities requiring flexible, reconfigurable layouts

Competitive Advantages

- Engineered for industrial loads, not light-duty warehousing
- Stackable system reduces the need for fixed racking
- Improves organization without slowing access
- Built in the USA with consistent quality and lead times
