

SOLUTIONS FOR RV MANUFACTURERS

Move RV Components Faster, Safer, and with Less Waste

Engineered racks, carts, and lifting solutions designed to improve flow, protect parts, and reduce total handling cost across RV manufacturing operations.

**PLYMOUTH
INDUSTRIES, INC.**

Custom Carts, Racks, Automation & Fabrication Solutions

Quality Products. Innovative Technology. Creative Solutions.

Custom Material Handling Solutions for RV Manufacturers

Plymouth Industries designs and manufactures custom material handling solutions specifically for RV manufacturers and their supply chains. From large panels to complex assemblies, each rack, cart, or lifting device is engineered around your product, workflow, and facility constraints—ensuring safer handling, improved throughput, and long-term cost savings.

Core Solutions

- **Shipping Racks** - Protect high-value components like windows, panels, and assemblies during transport while maximizing cube utilization and eliminating expendable packaging.
- **Work-In-Process Carts** - Streamline movement between stations, reduce handling time, and improve line-side organization.
- **Panel & Window Racks** - Designed to prevent cosmetic damage while improving accessibility and storage efficiency.
- **Pin Racks** - Secure, repeatable storage and transport for complex or irregular components.
- **Certified Lifting Fixtures** - Improve safety and efficiency with engineered below-the-hook lifting devices tailored to your products.

Features and Benefits

- **Custom-engineered designs.** Built around your exact parts for better fit, protection, and efficiency
- **Heavy-duty steel construction.** Long service life in demanding production environments
- **Integrated dunnage systems.** Prevents product damage and reduces scrap and rework
- **Optimized stacking and storage.** Increases density and frees up valuable floor space
- **Forklift and operator-friendly design.** Improves handling speed and reduces labor strain
- **Returnable and reusable systems.** Lowers packaging costs and supports sustainability initiatives
- **In-house engineering and fabrication.** Faster lead times and tighter quality control
